ORDER:

In the reference read above, the Commissioner of School Education and the State Project Director, Samagra Shiksha have stated that the Kasturba Gandhi Balika Vidyalaya (KGBV) scheme was launched by the Government of India in August, 2004 for setting up residential schools at upper primary level for girls belonging predominantly to the SC, ST, OBC and Minorities in difficult areas in the country. In order to provide nutritious diet to all the students, the Government of Andhra Pradesh is providing quality diet to all KGBVs comprising of 5 eggs in a week, daily fruits, weekly chicken, chikkis, ragi malt and milk. All the grocery and vegetables required are being procured through the District Level Committee under the Chairmanship of Joint Collector. However, in case of procurement of rice, some issues are come to light in the KGBV schools due to dual practises in transportation of rice to the school points. There is no uniformity in procurement of rice in both Type III and IV KGBVs. In order to place rice indent and supply of rice, the Principals of Type III and IV KGBVs get engaged for two to three working days, resulting in loss of academic instructional days. In some of the districts, the principals are facing problems in making payments and also in placing indent in time. Therefore, he has requested to issue Standard Operating Procedure (SOP) to avoid the dual practises in rice supply and untimely supply of rice to the door steps of KGBVs.
